³Chief Technical Officer, SANA Academic Press. India,

Hi-index, pronounced "HINDEX" stands for the multidisciplinary Scholarly Citation Index Analytics (SCIA). Hi-index is initiative from the Navis Academic Charity Foundation with the support of M/s Scientific Communications Research Academy. Hi-index database is a comprehensive research & evaluation tool for Scholarly literature intended to provide indexing and Article Download Metrics (ADM) as designed to help researchers assess the quality and genuinity of an article to all types of academic publishers journal articles, proceedings, books, thesis, dissertation, individual study materials to archive and provide the ADM of author and journal to improve the global visibility in the research field. It is a completely free service for indexing academic publishers only for it helps academicians to find suitable articles to refer for their research work and get more information under one umbrella.

Keywords: Hi-index, Scholarly, Citation, Index, Analytics (SCIA)
